## **Lanxess Corporation Opens Headquarters Near Pittsburgh International**

In September 2004, Allegheny County Executive Dan Onorato affirmed that the decision to locate Bayer Corporation's new subsidiary, Lanxess, in Findlay Township would greatly support the county's economic revitalization efforts near the Pittsburgh International Airport.

Bayer officials announced that Lanxess Corporation, a new company, would maintain its US headquarters at 111 RIDC Park West Drive in RIDC West. German-based Lanxess is a leader in specialty chemicals and operates in numerous global markets and had sales of more than EUR 6.5 million in 2008.
