

THE INSIDE STORY

Flabeg

In August 2008, County Executive Dan Onorato joined Governor Edward G. Rendell, Allegheny County Airport Authority officials, community leaders and company executives to break ground for a new facility at Clinton Commerce Park, a 240-acre brownfield site in Findlay Twp. at the intersection of Route 60 and Clinton Road just north of Pittsburgh International Airport.

Flabeg, a German-based global leader in high-tech glass and mirror applications, will use the facility to manufacture parabolic solar mirrors that are used to help generate electricity at large-scale solar power plants. It will be the company's first U.S. facility of this type and will create an estimated 300 new green manufacturing jobs in our region. Flabeg plans to lease a 209,000-square-foot manufacturing facility to be built at Clinton Commerce Park. The building will be constructed in two phases, with the first phase expected to open in October 2009.
