

# THE INSIDE STORY

## **Green Action Team & Sustainability Manager**

In September 2008, Onorato created the Allegheny Green Action Team, a group of experts and stakeholders who are helping the county to meet its green objectives and goals. The County Executive hired a sustainability manager in June 2009, to work with county department directors and the Green Action Team to conduct a top-to-bottom analysis of government operations and to identify ways to reduce the county's ecological footprint, such as adopting environmentally preferable procurement policies, expanding recycling in county-owned facilities, providing sustainability training to employees, and expanding use of hybrid vehicles.
